DETAILED ACTION

Election/Restrictions

Applicant's election of the species I including claims 1-2 and 9 in the reply filed on 7/12/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 3-8 and 10-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 1/20/04 has been considered by the examiner.

Additional Prior Art Cited

Each of Miyamoto et al and Tachibe et al discloses an optical scanning device having an optical deflector including a driving circuit.

Allowable Subject Matter

Claims 1-2 and 9 allowed. Claims 10 and 11 have been rejoined by the examiner.

The following is an examiner's statement of reasons for allowance: none of the cited references teaches or fairly suggests an optical deflector having "a first through hole on a lower face of the electronic part, formed on the drive circuit board; and a radiating member that, through the first through hole, directly contacts the electronic part or indirectly contacts the electronic part through an intervening conductive member"

(claims 1 and 9, lines 7-13 and 8-14, respectively) in combination with the remaining features recited in the claims. There is no motivation to modify the cited prior art so as to meet the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

This application is in condition for allowance except for the presence of claims 3-8 and 12 to the species non-elected without traverse. Accordingly, claims 3-8 and 12 have been cancelled.
